

## 2nd Chance 4 Pets 2010 Milestones

2nd Chance 4 Pets volunteers had a productive and eventful year in 2010, participating in many national animal care and veterinarian conferences and also facilitating educational workshops to promote *lifetime care planning* for companion animals.

Since we began our work in May 2004, our volunteer team has had a significant effect throughout the country. Thousands of pet owners, veterinarians and animal care organizations throughout the U.S. now recognize the significance of lifetime care for animal companions. *Most importantly, they understand how to ensure care for pets should these pets outlive their owners.*
